Professional Summary

Artificial Intelligence and Data Science undergraduate with hands-on experience in AI software development, Machine Learning, Computer Vision, IoT, and intelligent automation. Passionate about building AI-powered applications and intelligent software systems.

Education

Karpagam College of Engineering

2024–2028

B.Tech – Artificial Intelligence and Data Science, CGPA: 8.10/10

Sri Bharathi Vidyalaya Matric Hr. Sec. School

2024

Higher Secondary – 93.3%

Technical Skills

Languages: Python, Java, C++, SQL, JavaScript, HTML/CSS

AI/ML: Machine Learning, Random Forest, Computer Vision, OpenCV, Scikit-learn

IoT: ESP32, Arduino, MQTT, Embedded Systems

Tools: Git, GitHub, VS Code, Linux, MySQL

Selected Projects

J.A.R.V.I.S – AI Personal Companion

- Developed a modular AI companion integrating a local LLM with intelligent tool execution.
- Designed memory, planning and tool orchestration modules.
- Built desktop automation features using Python, Node.js, Ollama and Baileys.

Industrial Edge AI Safety Monitoring System

- Designed an ESP32-based industrial monitoring platform with MQTT and multiple sensors.
- Implemented Random Forest based predictive monitoring and dashboard visualization.

Face Morphing Fraud Detection

- Developed a deep learning based identity fraud detection system using computer vision.

Experience

IoT DE Intern – Karpagam College of Engineering

- Built IoT prototypes using ESP32 and Arduino.
- Integrated sensors for real-time monitoring using MQTT.

Certifications

NPTEL, MongoDB, Python Essentials (Cisco), Supervised Machine Learning (Infosys Springboard), IEEE Workshop

Achievements

- Developed a Breast Cancer Prediction model achieving approximately 90% accuracy.
- Participated in Hackovation 2.0 at VIT Vellore.
- President – Fine Arts Club; Active Volunteer – Youth Red Cross.
